COAL STRIKE IS CALLED OFF

TODAY IS ARMISTICE DAY IN INDUSTRIAL UNITED STATES

JUST AS THE SUN ROSE TODAY HIGH MINERS' OFFICIALS VOTED STRIKE OFF

Anniversary of Ending World War Brought Peace to Industrial America.

JUDGE A. B. ANDERSON APPROVES RE-CALL ORDER

Which Will be Placed in the Mails This Afternoon. Pledge Good Faith.

(International News Service.) INDIANAPOLIS, Nov. 11.—Today is armistice day in the industrial United States. The coal strike will be called off. After an all night session, a little handful of five score men which in the view of the government virtually hold the industrial future of the nation, or even the destiny of the nation, in its palm, decided to make peace between labor and the government.

The eastern sky was brightening when officials of the United Mine Workers, after being in session since 12:24 yesterday, finally voted to rescind the strike order which caused hundreds of thousands of miners to abandon their work on November 11, in compliance with the mandate issued in federal court here last Saturday.

Judge Albert B. Anderson, in federal court at 10 o'clock this morning, approved the strike recall order submitted by the mine workers. The text of the recall order submitted to the court by the union follows:

"To the officers and members of the United Mine Workers of America: Dear Sirs and Brothers: In obedience to the mandate issued on Nov. 8 by the U. S. district court, district of Indiana, Judge A. B. Anderson presiding, the undersigned hereby advise you that the order of October 15 directing a cessation of mining operations in the bituminous coal fields of our jurisdiction is withdrawn and cancelled.

"Fraternal yours,
WM. GREEN, Secretary.
JOHN L. LEWIS.

"Acting President." After hearing the recall order read, Judge Anderson said: "This appears to be a good faith effort to comply with the order."

"That is what this is intended to be, your honor," replied Henry Warrum, chief counsel for the miners.

Warrum promised to have the recall order in the mails by 6 o'clock tonight and Judge Anderson replied that "any good faith effort will be all right."

John L. Lewis, acting president of the mine workers, said today: "The recall order has gone forth. I cannot say how many men will return to work. I don't know. As to what action will be taken in the future I refuse to even hazard a guess. The miners are patriotic American citizens. We will obey implicitly the mandate of the court. We are Americans; we cannot fight our government." Mr. Lewis said the members of the conference had remained in Indianapolis to attend a policy meeting to be called this afternoon. It is understood the future program of the mine workers will be mapped out at this meeting.

The statement of the Attorney General last night follows:

"The coal strike is a plain violation of a federal statute. This has been the government's position from the start. The President declared it to be unlawful and the court, after full hearing, has now declared it to be unlawful.

"All I can say is that the law will be enforced. This same law has been

IN RECOLLECTION OF THE DEAD WE MUST DEDICATE OUR EFFORTS

Says Newton D. Baker on First Anniversary of Signing of the Armistice.

In recognition of the first anniversary of the signing of the armistice which ended world wide hostilities, the directing genius of the tremendous part played in the conflict by the army of the United States has by request, written the following statement for the International News Service:

Washington, Nov. 11.—(By Newton D. Baker, secretary of war)—The great fighting machine which a year ago today had amazed its associates and its enemies by completing the gruelling campaign of the Argonne, immediately after striking the swift blow in the St. Mihiel area and immediately before posing itself for another and even mightier advance farther to the southeast, has been contracted again to a modest fraction of its former size.

Of the 4,000,000 men or more which last November constituted the strength of our army, scarcely a quarter of a million remain. The record of transporting 2,000,000 soldiers to Europe during the last year of hostilities has been duplicated by returning more than that number in the year since hostilities ceased. The fleets of commercial vessels gathered from all the quarters of the earth and concentrated in the Atlantic shipping lanes have gone back again to their former and far scattered owners. The dead weight tons re-delivered by the war department now amount to 4,000,000, leaving scarcely more than 350,000 tons under army control. The abrupt termination of fighting left us many thousands of contracts in force. Of these more than 27,000 were immediately suspended, having a value of \$3,900,000,000. Of these, 22,378, more than 80 per cent, have been liquidated.

But despite this reduction in our military personnel, despite the return of these missions from abroad, there are many unhappily, who will always remain in the army and who will return, if they come at all, only as members of that great company whose tents are spread on fame's eternal camping ground. More than 77,000 graves have now been marked by the graves registration service. The bodies of those whose families desire it will be returned to America. The others will be gathered in centralized spots which will be cared for and beautified so as to make them fit resting places for the heroes there. In our observance of this and all the coming anniversaries of the armistice, the spiritual ranks of these dead must be present to our vision. In recollection of their efforts we must dedicate our efforts.

Rehabilitation of Injured Workmen Is Advocated by Former Local Man

Judge H. C. Myers, of the industrial commission of Oklahoma, has come into prominence as the advocate of the rehabilitation by the state and government of injured workmen, and will ask the next legislature of Oklahoma to appropriate \$50,000 for this purpose, according to an article which recently appeared in the Daily Oklahoman. The proposal is of interest here not only in its uniqueness but because Judge Myers was at one time a resident of the Twin Cities and is a former employee of the L. & N. shops.

The Oklahoman article, in part, follows:

The last report of the industrial

RED HEADQUARTERS AT CHICAGO RAIDED AND TEN ARRESTED

CHICAGO, Nov. 11.—Ten men, including the alleged leader of the Chicago branch of the Union of Russian Workers, are held by federal authorities here today, following a raid on what federal agents say is the Chicago headquarters of the organization. The raid was a part of the government's war on foreign political agitators. All of those taken in last night's raid will be deported, federal authorities say.

FORTY-TWO TRUE BILLS ARE FOUND

Forty two true bills were returned by the Morgan county grand jury in a partial report made to Judge Kyle yesterday afternoon. Eight of those indicted now are in jail.

The grand jury will probably make its final report Wednesday, having been in session since Monday a week ago. The largest number of witnesses appearing before a jury in Morgan in many years have testified before the present inquisitorial body.

Extract Bottles Found in Morgan Temple of Justice

Two empty bottles, marked "lemon" and one marked "orange," formerly filled with extract were turned over to Sheriff May this morning, having been found in the basement of the court house by the janitor. Officials advanced the belief that the contents of the bottle were not used in culinary preparations, but provided a flavoring for a new fangled drink.

Rehabilitation of Injured Workmen Is Advocated by Former Local Man

commission, covering a period of a year, shows in the group of permanent injuries that eight men lost an arm, nine men lost a leg, three men lost a foot each, thirty-five men lost one eye each, ten men lost a hand, while 154 others lost the first joints of fingers in accidents or in their work. In addition there were 2,014 eye injuries which may result later in total blindness or seriously impaired vision.

"The government recognized its responsibility to the men who were injured in battle, and has provided an elaborate system for their care and training. Surely society owes the injured working man as much," said Judge Myers.

General Rise in River is Predicted

A general rise in the Tennessee river is predicted in the following government report made public today: Chattanooga, raining, river 8.00, rainfall 1.11; Bridgeport, cloudy, river 1.5, rainfall 1.10; Guntersville, cloudy, river 6.25; rainfall 1.80. General rise will prevail.

TUG CRASHES INTO FERRY BOAT, THREE PERSONS KILLED

(International News Service.) PHILADELPHIA, Nov. 11.—Three men were killed and a dozen persons injured when the tug Caspian E crashed into the Atlantic City, a ferry-boat, early today.

PRINCE OF WALES VISITS THE CAPITAL

(International News Service.) WASHINGTON, Nov. 11.—In a drizzling rain which did not in the least dampen the warmth of the welcome accorded him, the Prince of Wales arrived at the American capital shortly after noon today. He was heartily welcomed by Vice President Marshall, who because of the President's illness received the royal visitor on behalf of the American government.

BIG CELEBRATION AT MOULTON TODAY

Armistice day is being celebrated at Moulton today in a most appropriate manner. A patriotic program has been arranged by the Lawrence county American Legion and a large crowd is said to be present. Lieut. Governor Nat Miller, of Birmingham, will be the principal speaker.

MINERS TO MEET THE OPERATORS

(International News Service.) WASHINGTON, Nov. 11.—Secretary of Labor Wilson will immediately call the coal miners and operators together to negotiate a wage scale. He made this statement this afternoon, following a meeting of the cabinet.

SENATE TO PROBE THE COAL STRIKE

(International News Service.) WASHINGTON, Nov. 11.—Investigation of the coal strike is provided in a resolution offered in the senate this afternoon by Senator Jones, republican of Washington. The resolution provides for a court and recommendations. Senator Jones asked that the resolution be referred to the committee on education and labor, of which Senator Kenyon, republican of Iowa, is chairman.

50,000,000 TONS OF COAL IS HELD

(International News Service.) WASHINGTON, Nov. 11.—Upward of 50,000,000 tons of bituminous coal will be released by the railroad administration as soon as it is definitely known when the miners will return to work, it was stated by the railroad administration today. This coal is on cars, and it is urgent that the cars be released so that they may be sent back to the mines.

WILHITE EXPLAINS SITUATION EXISTING REGARD REGISTRATION

Tells of Resignation and Failure to Acknowledge Receipt of It. No Successor Named.

A. G. Wilhite, former registrar of Morgan county today addressed a public letter to The Daily, telling of the events which led up to the present tangled registration situation in the county, regarding which a news story was published several days ago. Mr. Wilhite says his resignation was never acknowledged and no successor was appointed. His letter follows:

Falkville, Ala., Nov. 10, 1919
Editor of Albany-Decatur Daily:
Dear Sir: I noticed in your paper of the 8th article "Registration situation is now badly tangled in Morgan county." Will say I watched the papers up to April, this year to see if Gov. Kilby would appoint a Registrar for this county. Not seeing any and being unable to serve any longer, sent my resignation to Gov. Kilby at that time to take effect at once. I have never received an acknowledgment or heard anything from him. Under the registration law of 1915, Registrars are due to serve four years and until their successors are appointed and qualified. I was hopeful that the Legislature of 1919 would pass us a registration law as I consider the law we have been under for the past four years is worse than no law at all. On account of declining health I would not be able to fill the appointment as required by the law. So I will have to ask again that a Registrar for Morgan county be appointed and qualified at the earliest convenience.

Your servant,
A. G. WILHITE.

CAN ENTER BIRDS AT MALONE GARAGE MORGAN COUNTY AND DECATUR MEET

OFFICE WILL BE OPENED TO MORROW AFTERNOON FOR RECEIVING ENTRIES.

The Tennessee Valley Poultry Association, which is giving the big gold medal poultry show here, beginning on November 17, announced today that entries could be made at Malone garage any afternoon after today until next Monday. Miss Madjorie Miller, assistant secretary, will be at the garage each afternoon to receive entries, which can also be made with Secretary Hugh Ballew, Decatur.

Indications are that the show will be the biggest event of the kind ever held in the state. Entries will be made not only by chicken fanciers of Morgan and adjoining counties, but also by those of many states. Some of the most celebrated breeders in America will be represented.

RAILROAD BILL BEFORE HOUSE

(International News Service.) WASHINGTON, Nov. 11.—The Esch railroad bill was taken up in the house this morning with determination on the part of the House leaders to rush it through and send it to the senate before Friday.

RAILROAD CHIEFS MEET WITH HINES

(International News Service.) WASHINGTON, Nov. 11.—With the dawn of peace in the coal situation, the government today was facing another labor crisis. Director General Hines of the railroad administration was today meeting with the chiefs of the four big railroad brotherhoods, preparatory to answering their demands for increased wages. No inkling has come from the railroad administration as to just how far the government will go in meeting the demands, but the brotherhood chiefs have been very positive in their demands.

Madison County Will Honor Dead; Stoves is Orator

HUNTSVILLE, Ala., Nov. 11.—Armistice day will be celebrated generally in Huntsville today and exercises by the Grace Club will be one of the features of the day. The Grace Club will unveil two monuments that have been erected on either side of Whitesburg pike. One of the monuments will have a bronze tablet containing the name of every Madison County soldier who lost his life in the world war, and along the pike a tree will be planted and named for each of the heroes. Rev. George Stoves of Nashville, formerly of Huntsville, will deliver a patriotic address in the First Methodist church Tuesday night.

STRANGER IS FOUND ON PILE CROSS TIES IN RIVER BY POER SWALLOWED POISON

Taken to the Benevolent Hospital and Probably Will Recover.

NAME THOUGHT TO BE HARRISON POLYNSKY

Visited Several Jewish Merchants Yesterday and Acted Very Strangely.

A stranger, believed to be Harrison Polynsky, of New Orleans, is at Benevolent hospital in a serious condition as a result of eating rat poison last night in an apparent attempt to end his life.

The man was found by F. G. Poer, lying on his back on a pile of cross ties in the rain at the corner of Fifth avenue and Second street, west, about 7:30 o'clock last night. Poer had started to town and hearing groans followed the direction from which they were coming. Poer immediately called for aid on finding the stricken man. Several neighbors answered and a telephone call was put in for Dr. Petty.

The patient was transferred to the Albany city hall where he was given first aid and later was taken to the hospital. It was stated there this morning that the man probably will recover.

Appeared Here Yesterday

The stranger appeared here yesterday, visiting the stores of several Jewish merchants and acting strangely. J. Ling, owner of a Church street store, said the man came to him yesterday and borrowed \$20, declaring he wanted to go to his home in New Orleans where his wife lives. He left two suitcases, filled with good clothing. On a baseball glove there appeared the name of "Billie Parker, Sec. 68." On a handkerchief appeared several initials and the name of "D. Rosenberg."

Later the stranger went into the store of J. Block on Bank street and asked:

"Are you the president of the congregation?" meaning the organization of Jewish worshippers.

"Yes," replied Mr. Block.

"Have you a Jewish cemetery?" Mr. Block, humoring him, replied in the affirmative and the stranger left.

Entering the store of J. E. Harrison, he asked if there was a Jewish cemetery and said:

"There is going to be a dead Jew here tomorrow." Mr. Harrison thought the stranger was joking. He showed Mr. Harrison a quantity of rat poison.

Says He Was Broke

Officer New Thompson, of the Albany police department, stated this morning that the patient told him his name was "Harrison Polynsky" and that he came from New Orleans. At none of the places visited yesterday did he admit his name, but told Mr. Ling that he came from the Crescent City and that he was a laborer. A pair of overalls and work shirt in the suit cases seemed to bear out that part of his story.

What he did with the money borrowed from Mr. Ling is not known, as he had only 69 cents on his person when searched at the city hall.

"The man told me his name was Harrison Polynsky and that he came from New Orleans," said Officer Thompson, "he denied that there was anyone with him. He said he was broke and was ashamed to talk and did not want to talk."

Among the articles found in the man's baggage was a book entitled "The Great War," which stated it was dedicated to peace. Another was a hotel guide. The clothes were of good make, in good condition.

Half Holiday is Observed Today

All banks in Albany and Decatur, the Louisville and Nashville shops and the schools were closed this afternoon in observance of Armistice Day. The Daily published its last edition at noon, observing the half holiday.

FIRST ANNIVERSARY OF ARMISTICE DAY

One year ago today the civilized nations of the earth were raised to the very peak of ecstasy by the announcement that the armistice which terminated the world war had been signed. It was the greatest emotional occasion in the history of the United States, and the spontaneous celebration that swept the nation was one that will never be forgotten. The masses and the classes were as brothers then in proclaiming their joy at the triumph of democracy.

The succeeding twelve months, however, made it plain that the war had not ended, only the fighting had ceased. It has been a period of world unrest, of industrial turmoil, of universal discontent. America, more prosperous than at any time in its history, has only begun the adjustment that most inevitably follow a world cataclysm. It is a most favorable augury, however, that on the first anniversary of the signing of peace the coal miners have voted to call off their nation-wide strike, and the era of conciliation and compromise has dawned. It is devoutly to be hoped that from this time forth the spirit of peace will more completely mantle the earth and that men will agree to dwell together in brotherly love and harmony. The reconstruction period brought opportunity, an opportunity that discord should not be permitted to mar.

CRISIS FOR NEWSPAPERS.

The newspaper business is facing the gravest crisis in the supply of print-paper that has ever occurred. The shortage during the war period is nothing to that which is now existing. While the production of paper in the United States and Canada has increased very little in the past two years, the consumption has grown enormously. No one is able to predict what the price will be, or whether any newspaper will get an adequate supply of paper. The volume of advertising being carried by the newspapers of the country is unprecedented. The campaigns of national advertising which were put on by many concerns with an idea solely of creating good-will, and with little expectation of profitable returns, have been so successful that they have been increased.

Despite an almost universal increase in advertising rates the patronage has continued to grow. Many newspapers have been compelled to put a limit on their size. The Washington Star now limits its edition to 3 pages, and daily leaves out many columns of advertising. But several of the New York newspapers are running over this number of pages. The Detroit News prints from 36 to 40 pages daily, and of this 85 per cent is advertising.

Giving as its reason that the regulation by the government has made it impossible for it to earn a profit, the International Paper company, which makes 40 per cent of the news print used by American papers, recently cut off arbitrarily over a dozen southern newspapers and many others over the United States. It has announced that 3,000 tons of paper formerly manufactured as news print would be changed over to kraft and wrapping papers. There is a much better profit in these lines. This step on the part of the International created consternation in the newspaper profession. Many publishers sought in vain elsewhere to supply their needs. Other manufacturers have pursued a similar policy. One

of the largest newspapers in the south has been unable to contract for its 1920 supply. After representations were made to the International by a committee of southern publishers, it has agreed that instead of cutting off some newspapers arbitrarily, it will pro rate its supply to all its former customers. But this will necessitate all these newspapers reducing their size.

Newspapers also are finding the interest in the public constantly increasing and many of them have recovered the circulation which they lost soon after the war, when sales and circulation were considerably reduced.

The problem for the American press is one of conservation. No doubt the advertising rates will be adjusted more nearly like those in England, where for several years they have been much higher than in this country. The contents of the news columns will be studied to decide on what kinds of news and features can be omitted without lessening the interest on the part of the readers.—Albany News.

OLD GLORY AFLOAT

Starry Banner Now Waves on All Seven Seas.

Established Trade Routes for American Commerce Cover the Whole World, Practically Going to Every Recognized Port.

Our new established trade routes cover the whole world, writes C. H. Claudy, in the Scientific American. Thus there are 47 steamers sailing to the Argentine and they sail from New York, Boston, Mobile, New Orleans, Wilmington, Charleston, Savannah, Brunswick and Jacksonville. Two steamers go from New York to Pernambuco, Macao and Bahia, North Brazil. Twenty-five sail to mid-Brazil (Rio and Santos), from Charleston, Savannah, Brunswick and Jacksonville. Five steamers from New York and one from New Orleans make regular trips to the west coast of South America, ranging from Guayaquil, Ecuador, to Valparaiso, Chile.

Two steamers go from New York to North Africa and Egypt; five from New York to the Dutch East Indies; two from New York to Bombay and other Indian ports; three from New York to Spain (Barcelona, Valencia, Cadiz and the Seville). Every two months a steamer goes from the metropolis to Danzig, and every six weeks one or two steamers sail out to the Narrows to Constantinople and the Black Sea ports. Three steamers sail from New York to West Africa, two to South Africa, three to Australia and New Zealand, and three to China, Japan and the Philippines. Fifteen steamers leave the Golden Gate, one every ten days, for China and Japan, and two more from the same port go to Europe via the far East.

We have a steamer from New York to Genoa, and one from Baltimore to the same port; while two serve Greek ports from New York. To London we send six steamers from New York, three from Philadelphia, two from Baltimore and one from Norfolk. We send six to Liverpool from New York, two from Boston, five from Baltimore, one from Norfolk and one from Galveston. New York says goodbye to three ships clearing for Glasgow on monthly sailings, four to Havre, and three to Bordeaux. The latter port is also served from Boston and Baltimore with two steamers and one steamer, respectively.

New York sends two steamers to Marseilles and seven to Antwerp, while two from Boston, and one each from Philadelphia and Baltimore go to the same destination. Rotterdam sees New York ships to the number of ten, and from Philadelphia two. Copenhagen and Gothenburg are served by five steamers from New York while the West Indian ports are visited regularly by two steamers from Wilmington, two from Charleston, two from Savannah, two from Brunswick and two from Jacksonville.

Meanwhile, the balance of the list of ships is engaged in going to every port of the world where a cargo can go—and the flag at the stern is the Stars and Stripes.

Big Glass Industry in Japan.

The plate glass industry in Japan has greatly expanded since the world war. Before the war about 550,000 boxes of glass were consumed annually, 420,000 boxes of which were imported from Belgium and Germany, the remainder being of home manufacture. In the past year 850,000 boxes were manufactured in Japan, of which 600,000 boxes were consumed in Japan, and the remaining 250,000 boxes were exported.—New York Tribune.

The Earth as a Sphere.

Dr. William F. Warren, president emeritus of Boston University, in a late number of the Classical Journal, gives fresh evidence for the view so long advocated by him that man from the earliest times has had the conception of the earth as a sphere. He reviews the mythical geography of the East Aryans, showing that they looked upon the earth as a sphere, and considers what light this East Aryan geography throws upon the wanderings of Io as described by Aeschylus in his "Prometheus Bound," and upon the geographic ideas of prehistoric Greeks.

The conclusion is that this old myth as poetically retold by Aeschylus reveals a conception of the earth identical with the spherical idea of the East Aryans. Doctor Warren has given us a vigorous piece of criticism in this paper, succeeding in making clear the journey of Io to which so baffled the great Greek historian Grote that he said: "The route of Io in the 'Prometheus Bound' defies all comprehension, even as a consistent picture." Such a paper reminds us that Hellenic literature has not been exhausted by original investigation.

Apprenticeship for Mothers.

In the domain of home economics, which has become so firmly entrenched in the education of American women, the practice house has afforded something comparable to what the hospital offers to the medical student, says the Journal of the American Medical Association. Recently the varied activities in the practice houses of one large educational institution, have been diversified still further by affording opportunities to observe as well as to assist in the care of infants. The latter are secured from orphanages. This form of apprenticeship in the study of the homemaker's job is an innovation which deserves to be watched with interest.

Great Aqueduct Completed.

The completion of the Pugliese aqueduct is one of the important items in the extensive public-works development to be undertaken by the Italian government. The actual construction was started in 1905, and at the present time the main aqueduct has been finished. The final cost of the entire works will amount to about \$80,000,000. The main aqueduct runs from Naples to Taranto, through the province of the Puglie, and its length is something over 152 miles.

United States Ship Tonnage.

The second fleet of American merchant ships of over 1,000 gross tons each on August 31, 1919, registered for the foreign trade or enrolled for the coasting trade by sea, as shown by the returns of the bureau of navigation, department of commerce, under acts of congress, comprised 2,245 ships of 8,100,008 gross tons, of which 1,558 of 6,707,820 gross tons were steel steamers, 347 of 840,611 gross tons were wooden steamers, 95 of 180,487 gross tons steel sailing ships or schooner barges, and 245 of 371,000 gross tons wooden sailing ships or schooner barges.

Old Greeks Had Small Heads.

The ancient Greeks, one of the most intellectual of nations, were distinguished for their small heads.

Looked Cumbrous to Her.

A downtown store is making an early display of blanket bath robes. An elderly woman going through the store the other day was attracted by the bold patterns and stopped at the counter to examine the garments. "Just what are these used for, may I ask?" she said to the clerk. The clerk informed her that they were bath robes and the prospective customer replied: "For the love of goodness! Looks like they'd be mighty heavy if a body got into the water with them on."—Columbus Dispatch.

Meaning Is Same.

Massachusetts, Pennsylvania, Virginia and Kentucky are officially styled commonwealths, although there seems to be no particular reason, except custom, as commonwealth has practically the same meaning as state.

For That CHILLY Feeling

Take Grove's Tasteless CHILL Tonic. It Warms the Body by Purifying and Enriching the Blood. You can soon feel its Strengthening, Invigorating Effect. Price 60c.

Especially the Goat.

"What is your pet peeve?" "My wife's pets."

KEEP IT SWEET

Keep your stomach sweet today and ward off the indigestion of tomorrow—try **KI-MOIDS** the new aid to digestion. As pleasant and as safe to take as candy.

MADE BY SCOTT & BOWNE MAKERS OF SCOTT'S EMULSION

THE LIVER, KIDNEY AND BLOOD ARE THE "TRIPOD OF HEALTH"

If the Liver is Sluggish, the Kidneys and Blood Also Become Affected. Purgatives Alone Will Not Suffice. Take Dr. Hitchcock's Liver, Kidney & Blood Powders for All Three, Toning up the Liver, Regulating the Kidneys and Purifying the Blood.

A Vegetable Compound That Keeps Your Tripod of Health in Balance. Will Not Make Your Sick. Eat Anything You Like.

You get up in the morning feeling something awful, bad taste, dull headache, dizziness, irritable and an occasional pang of rheumatism. Then you conclude it's your liver, and so it is, but also your kidneys and blood, because what upsets one will upset the others. You not only need a laxative to steady the liver off but you also need something for your kidneys and blood. When you treat your liver alone you only treat a third of your trouble, while Dr.

Hitchcock's Liver, Kidney and Blood Powders tone up the liver, stimulate the kidneys to healthy action and thus purifies the blood. There is nothing that will tone up your entire system as quickly, or make you feel as good. Puts pep in you and makes you see the rosy side of life.

25 cents will buy a large tin box at your druggist. Take a level teaspoonful tonight and it will straighten you out by morning. Sold on a guarantee that you will be pleased or your money refunded. If your druggist can not supply you, send his name and address to the Hitchcock Medicine Co., Atlanta, Ga., and you will receive a sample free for your trouble.—Advertisement.

Points to Remember about ZIRON
IRON TONIC TABLETS

ZIRON is a tonic for pale, weak, anemic individuals. It will not give additional strength to well people. No tonic will.

If you are well, and wish to increase the strength of your muscles, the activity of your mind, keep away from medicines and drugs, for all that you need is good food, fresh air and plenty of EXERCISE.

But if you are pale, weak, nervous, in short, if you are not *real well*, that is a different matter.

Then, indeed, it is probable that you need a tonic. If an iron tonic, try ZIRON.

It will cost you nothing if it fails. Medical authorities of the highest standing, in this country and abroad, agree as to the genuine therapeutic

value of the medicinal drugs of which Ziron is composed.

It is not a secret or patent remedy. The ingredients are printed on the label and your physician will tell you of their beneficial action in cases of anemia and general debility.

Ziron is mild in its action, has no bad after-effects, does not injure the stomach or the teeth and contains no narcotic or habit-forming drugs.

It is a product of modern medical science and pharmaceutical skill and its claims are not based on extravagant or exaggerated statements.

If you need a tonic, try Ziron, under the advice of your physician or according to the directions on the label, and if the first bottle fails to benefit you, request, and get, your money back.

THE BEAUTIFUL ELOQUENCE OF TRUTH

In Open Court, 55 People Swear as to Their Experience With the Great Remedy, Sul-Ferro-Sol. Many Cures of Cases of Rheumatism, Pellagra, Eczema, Tetters, Etc., Proven.

Sworn to tell the truth, the whole truth, and nothing but the truth, 55 witnesses recently testified in the United States Court, Western District of South Carolina, that they were benefited or cured of various blood troubles through the use of Sul-Ferro-Sol.

Sul-Ferro-Sol and Sul-Ferro-Sol only—just think this over.

Of this assembly, some had suffered all months, while others had suffered for years. But they all swore that Sul-Ferro-Sol had done exactly as claimed.

And here is our point of appeal: Use a blood purifier of proven efficiency. Sul-Ferro-Sol comes from a natural deposit of iron, sulphur and potash recently found in Mississippi. It's nothing more than a wonderful mineral water.

Most highly recommended for rheumatism, eczema, tetters, facial blemishes, pellagra, and all other diseases characterized by impure blood.

At all drug stores, everywhere. Take a bottle for one dollar.

Interesting booklet, "Road to Health," request. The Sul-Ferro-Sol Co., Birmingham, Alabama. Desk B.

QUICK! YOUR HAIR NEEDS "DANDERINE"

Check ugly dandruff. Stop hair coming out and double its beauty.

A little "Danderine" cools, cleanses and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the furnished hair roots, revitalizing and invigorating every hair in the head, thus stopping the hair falling out, or getting thin, dry or fading.

After a few applications of "Danderine" you seldom find a fallen hair or a particle of dandruff, besides every hair shows new life, vigor, brightness, more color, and thickness.

A few cents buys a bottle of delightful "Danderine" at any drug or toilet counter.—Advertisement.

Any druggist anywhere, will recommend it; praise it; guarantee it. He will tell you that a small box of this wonderful discovery will do the work of 60 mustard plasters.

Tonsillitis, bronchitis, pleurisy and deep-seated coughs go, over night

DOINGS OF THE VAN LOONS

PARK TO REPLACE VILLAGE

Extension of Public Domain Makes Necessary Sacrifice of Port Kennedy in Pennsylvania.

The state of Pennsylvania, through the Valley Forge park commission, has condemned by right of eminent domain the entire village of Port Kennedy, on the Schuylkill river, near Valley Forge. The place has a population of about six hundred, two churches, a schoolhouse, a home for poor children, three picturesque old mills and about 100 dwellings. All but the schoolhouse and the churches are to be torn down to make way for the enlargement of Valley Forge park, and the whole village is wondering where it is going to find new homes.

A few years ago Valley Forge park contained only 250 acres. Somebody discovered that the act creating the park provided that it should lie with in the outposts of Washington's encampment. Port Kennedy seems to come within that territory, although there has been considerable historical argument on the point.

For some years the villagers have been fighting the plans of the commission to extend the park, but now they have given up. The Rev. Rhea Coffman, pastor of the Port Kennedy Presbyterian church, is leading the movement to establish a new community. "This presents a big problem to most of us," he says. "The majority of Port Kennedy people earn their living at the near-by mill and getting away from here may mean serious financial loss. We have been organizing prospective lot buyers and have obtained an option on a 90-acre tract that is still within walking distance of the mills; 41 of our people have agreed to buy lots there."—Boston Evening Transcript.

New Cancer Theory

Contrary to general belief, Dr. L. M. Otis, a prominent St. Louis physician, declared at a recent convention of the American Association for Medical-Physical Research held in Chicago that the cancer is not hereditary, not contagious and is positively curable.

"One result of the great war," he said, "has been the great prevalence of cancer, the result of wounds and other causes. But cancer is not contagious and, like leprosy, while it may be latent in the system, does not develop in the offspring of the one affected."

"Cancer is absolutely curable, in from one to three months, if treated in its earlier stages, and for this treatment I use a pus serum made from the afflicted patient and then re-injected into the veins of the patient from whom it is so obtained. The treatment is not painful and does not confine the patient to bed, but permits of the usual work or duty each day while under treatment."

Croix De Cruller

The big doughnut bakery which the Knights of Columbus have been operating at Coblenz, Germany, to supply the soldiers stationed in the Rhineland ever since the armistice furnished the "favorite fruit" of the several American doughboys who recently arrived home and told about the championship eating contest, William J. Long, twenty-three, a six-footer from Providence, R. I., who was awarded the "croix de cruller" for demolishing 249 doughnuts in 24 hours, easily won the contest from the ten other men who had entered the contest.

Private Long's record was a cruller a minute for the first hour. During the next three he consumed 90, and after a short rest he finished the balance. The second man in the contest ate 180, and the third man 115.

Long weighs about 211 pounds and the doughnuts which he ate were the western type made famous by a certain chain of railroad restaurants. The croix de cruller is a medal of bronze, designed after the lines of a doughnut with the number 249.

Many Like This In Albany Ala.

Similar Cases Being Published In Each Issue.

The following case is but one of many occurring daily in Albany. It is an easy matter to verify it. You cannot ask for better proof.

Lee McNeese, Prop. wagon and carriage establishment, 120 Moulton street, Albany, says: "I used Doan's Kidney Pills every spring and fall as a preventive of kidney trouble and they keep my kidneys in a good, healthy condition. In the wagon and carriage business, I have considerable standing on my feet and now and then take a heavy lift. It affects my kidneys and brings on an attack of back ache. My kidneys act irregularly, too. As soon as I feel any of these symptoms coming on, I get a box of Doan's Kidney Pills at the People's Drug Co., and in a short time my troubles disappear. I am pleased to give Doan's Kidney Pills my endorsement."

NOVEMBER ROLL CALL

To Establish Red Cross Community Welfare Work.

STATE CHAIRMEN AND QUOTAS FOR ALABAMA, LOUISIANA AND MISSISSIPPI.

New Orleans.—There will be two victories celebrated on Armistice Day, of 1919. First there will be the anniversary of the Germans' last "Kamerad," of course. Next, there will be at the same hour of the same day, the successful termination of the Third Red Cross Call which will be conducted, according to an announcement made Saturday at the headquarters of the Gulf Division here, from November 2 to 11.

The State Chairmen and the state quotas were also announced. For Alabama, Lloyd M. Hooper, of Selma, will head the drive. In Louisiana, Judge E. H. Randolph, of Shreveport, will mobilize the Red Cross forces. Thaddeus Lampton, of Jackson, is Chairman for the State of Mississippi. The national goal is for \$15,000,000, and 20,000,000 members. Alabama is asked for \$73,060 and 84,150 members. The Louisiana quota is \$130,000 and 149,600 members, and the Mississippi mark is \$56,940 and 65,450 membership.

The campaign is to supply the American Red Cross with the men, women, and money needed not only to complete wartime activities of the Red Cross, but to establish in local communities the newly-formulated peace program of which work such as that now being done by the Red Cross in the stricken areas around Corpus Christi, is one branch.

Other branches of this peace-time program are the Home Service Department, which gives help and advice to the needy, works for better schools, playgrounds, recreation and social centers, and community clubs; a Nursing Department, whose aim it will be to provide a Public Health nurse in every Chapter, and to do emergency nursing in times of epidemics; a First Aid Department, to give training in emergency treatment; and a Department of Disaster Relief.

In addition to this peace program, the completion of the present war program includes the care and service to American soldiers in Russia, Germany and in France; the continuation of the disease fight which is being waged in Siberia, Poland and the Balkans; and continued care, assistance and service to the 30,000 American soldiers still in military hospitals, and the several hundred thousand who have been discharged disabled.

One of the high lights of the campaign here in New Orleans—will be the visit of Dr. Livingston Farrand, Chairman of the national central committee of the American Red Cross, will pay the Crescent City. Dr. Farrand will reach New Orleans on October 3. In the swing he is making about the country in the interests of the Roll Call, and will make an address here the same night. He will leave on the following morning for Jackson, where he will speak that evening. On the tenth Dr. Farrand will speak in Birmingham, Alabama.

Incidentally, there is one chapter in the American Red Cross which has already far exceeded its quota, despite the fact that the roll-call will not be completed until the eleventh hour of the eleventh day of the eleventh month, and that Chapter is Honolulu.

According to a telegraphic announcement from Washington headquarters immediately upon receipt of the campaign plans, the Hawaiian branch called a subscription of \$75,000. This sum was much larger than the quota which would have been assigned the Honolulu Chapter.

The following "Call" was issued Saturday by Manager Homer W. Boral, of the Gulf Division's Third Roll Call: "For the purpose of alleviating human suffering among our recent allies of the great war; of continuing Red Cross service to the soldiers and sailors of our country; of aiding disabled soldiers and sailors to regain health and happiness; of continuing Red Cross advice and assistance in every locality to the families of fighting men; of extending the aid of the Red Cross to all those in need; and of using every practicable means for the elimination of disease and distress, Red Cross calls upon every American to give loyal response to the Third Roll Call, November 2 to 11."

Fell Duty Not Being Done.

Much has been done for the child, much is now being done, but the best is not being done. It is toward the best that all social endeavor should aim, and short of the best neither the state nor the individual should rest satisfied.—W. Clark Hall.

SCIATIC PAINS QUICKLY RELIEVED

Keep Sloan's, the World's Liniment handy to allay aches

THOUSANDS of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular a third of a century ago—far more popular today.

That's because it is so wonderfully helpful in relieving all external aches and pains—sciatica, lumbago, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for it soon penetrates without rubbing to the sore spot. Leaves no mites, stained skin, clogged pores. A bottle today is a wise precaution. Keep it handy.

All druggists—35c., 70c., \$1.40.

Suffered 3 Years With Rheumatism, Catarrh and Stomach Trouble, Since Taking No. 40 Feels Fine

Gary, Ind., April 25, 1919.—"I suffered for over three years with chronic rheumatism, catarrh, constipation, stomach trouble, bad blood, nervous spells, aching limbs, so I could not sleep. Saw an advertisement in the daily paper about Mendenhall's Number 40 For The Blood. Thought I would give it a trial. Altho I was discouraged, as I had doctored with a number of physicians and tried numerous medicine without receiving any benefit. I have taken but two bottles of Number 40. Can eat anything I want without fear and am not near so nervous and am feeling fine. I am now starting on my third bottle. Mrs. Gostine Rainey, 2270 Jefferson St." 40 is demanded in rheumatic, gouty conditions, malnutrition, auto-toxication, constipation, liver and stomach troubles. Believed to remove and prevent gallstones, appendicitis. Successfully used in eczema and skin diseases. Used with phenomenal success in chronic rheumatism, catarrh, lumbago, myalgia (pain in the muscles, muscular rheumatism or neuralgia), glandular swellings, scrofula, mercurial and lead poisoning, abscesses, sores, ulcers, boils and carbuncles. Sold by Preuit-Dillehay Drug Co.—Advertisement.

For Colds or Influenza and as a Preventative, take LAXATIVE BROMO QUININE Tablets. Look for E. W. GROVE'S signature on the box. 30c.

Milk Toast Diet Too Much For Her

"I doctored for years with only temporary relief. My liver was very bad, after eating I would always have such a fullness in my stomach and my heart would palpitate. I could not eat milk toast without distressing me. Since taking a course of Mayr's Wonderful Remedy, more than a year ago, I can eat anything my appetite desires." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Sold by S. M. Thompson, Albany, or Owl Drug Co., Decatur and druggists everywhere.—Advertisement.

SOCIETY NEWS

Margaret C. Shelton, Phone 682, Albany

THOUGHT

I believe in the United States of people, by the people, for the people, whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect Union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag, and to defend it against all enemies.—By William Tyler Page.

TRUE NOBLENES

"For this true nobleness I seek in vain,

In woman and in man I find it not, I almost weary of my earthly lot, My life-springs are dried up with burning pain."

Thou find'st it not? I pray thee look again,

Look inward through the depths of thine own soul; How is it with thee? Art thou sound and whole?

Doth narrow search show thee no earthly stain?

Be noble, and the nobleness that lies In other men, sleeping, but never dead,

Will rise in majesty to meet thine own;

Then wilt thou see it gleam in many eyes,

Then will pure light around thy path be shed,

And thou wilt nevermore be sad and lone. —Lowell.

Miss Thelma Cline, a valued employee of the A. T. & T. went to Louisville today for special training to qualify as an instructor for the southern division of the telephone company. She will probably be absent six to eight weeks.

FLOWER SHOW

There is to be no charge for entering flowers at the Flower Show to be opened next week at the Malone Garage. The following prizes will be awarded at the Flower Show next week. They were secured by Mrs. F. F. Tidwell, chairman and her assistant, Mrs. A. A. Hardage: One ton of coal, one barrel of flower, one lavatory, one silver loving cup, several pairs of silk hose, two rocking chairs, one \$10 hat. Refreshments will be served each day. Chairmen for each day have been secured from among the most popular matrons in the city. Success is assured, as nothing has ever been put over at the Malone garage but what the public stamped it with approval.

Mrs. J. S. Patterson of Ferry street will entertain the Five Hundred club on Thursday at 2:30.

After a ten day's illness, Mrs. L. F. Goodwin is improved.

Mrs. Mary K. Terry of Birmingham is visiting her nephew, Rev. L. F. Goodwin.

MR. AND MRS. LAMAR PENNEY ENTERTAIN AT DINNER

Mr. and Mrs. Lamar Penney entertained at dinner last evening. The table was handsomely appointed, centered by a bowl of pink fall roses. There were place cards for Mr. and Mrs. W. H. Driskill, Mr. and Mrs. John Clifton, Mr. and Mrs. Penney, Mrs. B. B. Pickens.

BIRTHDAY PARTY

A party that was so much enjoyed by the several children of Mooresville and Bell Mine, was that given by little Margarette Earl Steels, Saturday, November the eighth, from 8 to 5 o'clock. The home was beautifully decorated in pink and white, using large vases of chrysanthemums, (gift flowers), while in the dining room, for the center decorations, the large cake held six burning candles. Several games were enjoyed before they gathered in the dining room for refreshments.

Little Margarette was the recipient of several presents, which marks her popularity, in life quite early, at the age of six years.

At five o'clock the little tots departed with glad hearts taking with them a souvenir of the day, the boys receiving policeman's whistles and the girls miniature powder puffs.

The out of town guests were the little Misses Margarette and Mary Broadus, Mary B. Hindricks and Master Joe Broadus of Decatur.

PERSONAL

Rev. L. F. Goodwin has returned from Birmingham where he attended the golden wedding anniversary of his parents, Mr. and Mrs. J. I. Goodwin.

Revs. S. G. McCluney and M. N. Crow left this morning to attend the Alabama Synod at Leeds, Ala.

E. C. Payne is able to resume business following an illness of several days.

Wilbur McCluskey is improving after an illness of a few days.

Rev. W. N. Sholl is attending synod at Birmingham.

BIRTH

Born to Mr. and Mrs. Russell Speake—a son.

"One Legged" Man Assaults Another Charges Declare

John Bennett, a one legged man, is in the Morgan county jail charged with assault on the person of another male with but one leg. The arrest was made by Deputy W. Z. Butler. Bennett will be given a hearing at an early date.

NO WIRES NEEDED

Invention Makes It Easy to Talk Through Space.

New Radiophone Can Be Connected to Ordinary Electric Light Socket in Any Building—Means Much to World.

The successful application of alternating current—the 60-cycle alternating current of any ordinary household or office building electric light installation—to the field of the wireless telephone is announced by Dr. Lee de Forest as the first result of a series of after-the-war experiments in the application of the new radio art to the purposes of peace.

Elimination of the "hum" is, accordingly, made possible when the wireless telephone circuit is now connected with the ordinary electric light line, a problem which, it may be said, has long confronted radio engineers.

Another advance in wireless progress to result from the new circuit employed by the inventor is the elimination of the high-powered generating stations for the production of direct current, the cost and complication of which has heretofore been beyond the reach of the ordinary layman.

All that is required now, in the way of voltage, is any ordinary lamp socket in house or office building. Remove the lamp, "plug in" a pony wireless panel and do your talking. That is what the engineers of the De Forest laboratories have been doing for the last several months between Highbridge, Westchester, and downtown, New York.

"After several months of constant effort and experimentation, in the field of the wireless telephone," said Dr. de Forest, "it is more than gratifying to be able to announce that we have at last succeeded in applying the principles of the radio art in such a way that any one may now, without technical knowledge, talk in space, without wires, from house to house and from city to city, by utilizing alternating current now employed in lighting the house, and when we stop to consider that probably nine-tenths of the electric light installations in the rural districts supply alternating current, the great benefit thus placed at the disposal of the world is readily observed.

"Such a feat may be, no doubt, a little surprising to the ordinary layman, but there is no question today but the dawn of a new wireless age—not for experimenters and laboratory workers, but for the public at large—is already here. Coupled with the ordinary lamp socket found in any house throughout the country, the new wireless panel will do the trick. The few requirements in the way of operations are no more difficult than calling central. In fact, with the new pony wireless there is no need of disturbing central. One may call the other desired party by wireless in person." —New York Evening Post.

COAL STRIKE K IS CALLED OFF

(Continued from Page 1.)

enforced many times and the department of justice has other cases now pending which were brought under it. The merits of the controversy between the operators and the miners are not involved in the court proceedings at Indianapolis, neither is the right to strike. Nothing that the government has done is intended or designed to have any effect upon the recognized right of labor to organize, to bargain collectively, through its unions, and under ordinary industrial conditions, to walkout by concerted action.

"The proposal by the President of a peaceful settlement of the matters at issue between the operators and the miners, through negotiation or arbitration, was rejected and the government, therefore, faced the alternative of submitting to the demands of a single group, to the irreparable injury of the whole people, or of challenging the assertion by that group of power greater than that of the government itself.

"Confronted with such a choice, the government's duty was perfectly clear. It refused to surrender to the dictation of a group and it proposes to assert its power to protect itself and the people, whom it is designed to serve. The government is no respecter of persons in the enforcement of the law. Those who conceive that the resolutions of a convention or the orders of the officers of any organization in the country, whether labor organization or any other, are superior in authority to the law of the land will find themselves mistaken.

"I assume that the order of the court will be obeyed. The President's offer for a peaceful settlement is still open and I hope that the miners and operators will now get together and settle their controversy."

LANSING IS ASKED FOR INFORMATION

(International News Service.) WASHINGTON, Nov. 11.—Secretary of State Lansing was called upon to report to the senate what "degree of protection for official representatives and citizens of the U. S. in Mexico" has been demanded by the U. S. of the Carranza government, and "what response had been made thereto," in a resolution unanimously adopted by the senate today. The resolution also provides that Secretary Lansing furnish the senate "if not incompatible with public interest," all information in his possession regarding the abduction of Wm. O. Jenkins, U. S. consular agent at Puebla, Mexico.

DEATH RATTLE OF CALOMEL IN SOUTH

Dodson is Destroying Sale of Dangerous Drug With His "Liver Tone."

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's Dodson's guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. It doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate so let them eat anything afterwards.—Advertisement.

(By Arthur Brisbane.)

Silver, you may be delighted to hear, without any help from a political party, is almost on a 10 to 1 basis. The metal in a silver dollar is worth about as much as the metal in a gold dollar.

"Time at length makes all things even." If you wait long enough, the joke of one day becomes the solemn reality of another. If the water wagon should develop a hot box, as it may do, a few years from now when capital decides that labor is doing too much thinking, Mr. Bryan can make a daring leap from his dry wagon back on to the old silver wagon and have a perfectly respectable ride.

Farmers denounce strikes, and say that the nation needs more work. While miners ask for a six-hour day five times a week, farmers say they would be delighted to get a ten-hour day seven days a week.

England has decided not to tax capital. Old papa Farmer will be allowed to lie, possess and sleep. No one will cut a hole in his privacy.

TAKE ASPIRIN RIGHT

Bayer Company, Who Introduced Aspirin in 1900, Give Proper Directions.

To get quick relief follow carefully the safe and proper directions in each unbroken package of "Bayer Tablets of Aspirin." This package is plainly stamped with the safety "Bayer Cross."

The "Bayer Cross" means the genuine, world-famous Aspirin, prescribed by physicians for over eighteen years.

"Bayer Tablets of Aspirin" can be taken safely for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Joint Pains, Neuritis, and Pain generally.

Handy tin boxes of 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic acid.—Advertisement.

WHEN SHE BROKE DOWN

She took STELLA-VITAE and got well. If she had taken STELLA-VITAE sooner, she needn't have broken down. Many women in the prime of life have made this mistake. Many young girls have started into womanhood handicapped for life because their mothers neglected them at the critical period.

For more than half a century STELLA-VITAE has helped suffering women; helped them back to health and vigor, helped them to keep well and happy.

STELLA-VITAE is sold by your druggist on agreement that if the first bottle does not help you, he will refund the money you paid for it.

"I feel that I should tell you and those who suffer from female trouble what your wonderful STELLA-VITAE has done for me. I suffered from nervous headaches and was all run down in health when a friend of mine advised me to try STELLA-VITAE."

"Nothing else seemed to do me any good. I concluded to try it, and after taking it a short time, I found, to my great joy, that it was the very medicine I needed. I am now so much better that I gladly recommend it to every woman who has female trouble. STELLA-VITAE will do for women all that you claim."

Mrs. T. T. Devers, Tenn.

RAILROAD ADMINISTRATION

But English incomes will continue to be divided about fifty-fifty between the Government and the owner.

The ancient Roman methods that made so many emperors unpopular, such as condemning a man to death for lese majeste and taking all he had, or confiscating half of a man's property to help the public pocket, does not appeal to the British Empire—yet.

How much will prohibition add to the world's thinking power? Many of the ablest men have devoted three-quarters of their energy to fighting alcohol within themselves.

Millions of average little men never did any real thinking. They did not get real drunk, but took just enough to keep them quiet and contented.

They went to bed sleepy, got a little remorseful, complained of nothing except themselves.

Now everybody will go to bed on ice water. There will be done about ten thousand times as much thinking as was ever done before.

What will be the result? It will depend upon the quality, intelligence and mental balance of the thinkers. We know what happened in Russia, to the Czar and to the Government when the Czar cut off alcohol "to make his people more efficient."

Interesting things will happen here, with so much energy, diverted from moderate self-indulgence to discontented thought. It would pay those that have big interests at stake to watch closely the thought movement and especially not to imagine that they can solve all problems by calling somebody a "Red" or a Bolsheviki.

When the crowd is thinking you must answer the crowd thoughtfully, even though the crowd may be thinking foolishly. Epithets won't answer anything.

It is interesting about the jury of women, assembled in Cleveland, Ohio, to decide what should be done to a lady and gentleman who went away from the lady's lawful husband and children.

According to Schopenhauer, you would expect the ladies to be hard on the female in the case, and lenient with the man.

Not at all. For the man their verdict is, "We recommend the maximum penalty." They ask clemency for the woman. But that lady, a determined advocate of the "triangle," says she will not go back to Mr. Drossos, so the Judge fined her \$200 and sent her to the Workhouse for three months.

The jury ladies, by the way, decided that the lady, in spite of her triangle, should retain possession of her baby. They wisely decided that a mother would look after her baby better than anybody else, triangle or no triangle.

The well-meaning husband who may be described as the Obtuse Angle in the triangle, set a good example. He says he wants his babies back and will take his wife back too, whenever she wants to come. Human beings are not really bad, they are simply children, taking their childish foolishness for grand emotions.

You can't civilize the Congo by act of Congress, you can't make people worthy of liberty or desirous of liberty until they are fit for it. In Hungary, it appears that a large majority are sick of self-rule and want a king to rule over them. They think it more peaceful and steady. That is what the frogs thought, but they got their lesson from the big bird that picked them to pieces. Not all human beings are as intelligent as frogs.

AVIATORS HAVE SIXTH SENSE

Proof That the Human Body Is More Highly Endowed Than Has Hitherto Been Supposed.

The London Lancet asks which of the five senses could have played a predominant share in the successful transatlantic flight of Alcock and Brown.

"Sight, even when the moon was visible, was practically nullified by the constant cloud and storms of sleet or hail; hearing must gradually have lost its acuteness in the course of 16 hours of exposure to the tremendous din of engines and propeller—it is recorded that both officers were deaf on disembarking; the vestibular sense seems to have been no trustworthy guide inasmuch as the pilot admitted involuntary indulgence in stunting and seems to have looped the loop with out being aware that his vertical direction was changing.

"On the other hand, the aviators' horizontal direction must have been marvelously precise throughout, as, with no landmarks to guide them, their destination was reached without a hitch, when a swerve of a single degree to one side or the other of the direct line would have lost them their objective.

"Presumably the imperfect sense records supplemented each other in nervous systems long trained to rapid and impromptu adjustment."

It seems that the human body is endowed with a sense of stability and balance that depends not upon any one of the "five senses" and cannot be localized entirely in the labyrinth of the ear. Some men possess this sense in greater degree than others.

DECLARATION OF OBJECT, PURPOSE AND POLICIES

AMERICAN COTTON ASSOCIATION
SET FORTH IN CONSTITUTION
AND BY LAWS.

The objects and purposes of this Association shall be:

1. To protect the interests of the cotton producer and to improve his condition.

2. To promote economic regulations of cotton production to the end that supply shall be so adjusted to demand that the producer shall at no time be required to sell his product at less than a fair and reasonable profit.

3. To promote intelligent diversification of crops, and to develop markets for such crops, other than cotton, as may be profitably raised.

4. To improve and enlarge presently existing warehousing facilities to the end that the producer may carry his crop, or such part as he may desire at the minimum of expense and physical damage and at the maximum of security and financial stability.

5. To broaden the markets for raw cotton and to enlarge the uses for cotton and cotton goods.

6. To improve and increase transportation and distribution facilities.

7. To collect information as to both domestic and foreign consumption of cotton, the state of trade, the extent of acreage, supply and condition of crop, and all other information of practical interest to the cotton industry, and to disseminate the result through the several sub-organizations to every member of every community together with directions as to the course to be pursued in order to secure the best results in view of the facts disclosed.

8. To do all and singularly whatsoever may be conducive to the stability and profitability of the cotton production industry.

Father's Way of Economizing.

As a general thing, father's favorite way of economizing is to stop the children from spending.—Dallas News.

Scene from Selwyn & Co's. sensational comedy hit "The Naughty Wife" at the Masonic theatre Tuesday evening, Nov. 11.

A Simple Way to Get the Benefit of the Best Senna

Dr. Caldwell's Syrup Pepsin contains the finest Egyptian Senna, as recommended by the U. S. P.

A GREAT many people, habitually constipated, find relief in chewing senna leaves or brewing them into a "tea" and drinking it. They will be glad to know that they can obtain senna already brewed, at no greater expense and in a much more convenient and agreeable form.

The chief laxative constituent of Dr. Caldwell's Syrup Pepsin is Egyptian senna (*Cassia acutifolia*) gathered in the Egyptian Soudan. This grade is seldom sold at retail. It is, however, recognized as first in the U. S. Pharmacopoeia because of its freedom from gripping and its cleaner action on the intestines, and because it does not lose its effect after repeated use.

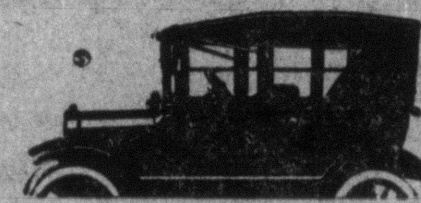

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Marietta, Illinois.

Dr. Caldwell's Syrup Pepsin is an inferior grade of senna at retail now buy Dr. Caldwell's Syrup Pepsin for 50c and \$1 a large bottle. It is sold in all drug stores.
